

The enclosed dove, a symbol of love and memory, is provided for you to decorate as a tribute to your loved one (choose any material that best represents that person). When you have completed it, display in a manner that will bring you comfort and serve as a reminder that they remain near.

Before the webcast begins, please have a candle and a candle holder within reach (with matches or a lighter). You will be instructed to light the candle when it is time.

Though we are not able to be together physically, we will form a virtual community—receiving and providing support to one another.
